<b>Learning outcomes</b>								
RefuSkills: Vocational competences - U3-Label of Learning Outcome		Training Module Code	Competence					
		U3	Knowledge			Skills		
<b>Measurement equipment and tools</b>		U3.1	Use measurement and control instruments with autonomy.					
			She/he knows about measurement procedures, and about the applicability of measuring equipment and tools (e.g. dimensions, welding parameters, temperatures).			She/he selects the equipment and tools to do specific measurements.  She/he interprets specific unit measurement procedures from information contained in the WPS.		

		She/he knows the importance of using equipment to measure and control welding variables.	She/he uses basic dimensional measuring tools for welds measurement.
<b>Materials</b>	U3.2	Apply welding procedures and technique according to the materials specifications, with some level of autonomy.	
		<p>She/he she knows how to distinguish between different materials and consumables for welding.</p> <p>She/he knows the elementary concepts of weldability of different materials.</p> <p>She/he knows basics of material preparation (e.g. cutting, cleaning)</p> <p>She/he knows the elementary concepts of shielding gases and their properties, especially in connection with safety hazards.</p>	<p>She/he identifies and uses consumables (filler material, shielding gas, other) to perform welding jobs.</p> <p>She/he assesses if the consumables are in adequate condition for use.</p> <p>She/he identifies base materials (ferrous and non-ferrous) for welding.</p> <p>She/he prepares base materials and consumables for the welding job.</p>
<b>Welding and Auxiliary Equipment and its maintenance</b>	U3.3	Use and maintain welding and auxiliary equipment with autonomy.	
		<p>She/he knows technological characteristics of manual tools and equipment used in welding.</p> <p>She/he knows about equipment and tool maintenance requirements.</p>	<p>She/he sets up the welding equipment according to the requirements of the WPS.</p> <p>She/he chooses the tools, welding and auxiliary equipment, according to the performed work.</p>

			<p>She/he distinguishes the main characteristics of equipment and tools.</p> <p>She/he uses the appropriate tools, welding and other auxiliary equipment, according to the WPS and before, during and after the welding phases.</p> <p>She/he measures pre-heat and interpass temperature, if required.</p> <p>She/he executes the maintenance of welding and auxiliary equipment.</p>
<b>Structures assembly</b>	U3.4	Prepare a welding joint fit-up according to the WPS, with autonomy.	She/he performs joining preparation according to the WPS requirements.
		She/he knows about manufacturing and assembly of structures with different welding processes.	<p>She/he implements fit up tolerances according to the technical drawings and WPS.</p> <p>She/he uses welding assembly techniques for metallic structures.</p>
<b>Welding processes:</b> <ul style="list-style-type: none"> <li>• <b>MMA (111)</b></li> <li>• <b>MIG/MAG (131/135)</b></li> <li>• <b>TIG (141)</b></li> </ul>	U3.5	Perform a welding job according to the WPS, with some level of autonomy.	
		She/he knows the characteristics of at least one fusion welding processes (e.g. MMA, TIG,	She/he executes at least one fusion welding process in a professional environment, based on requirements from EN ISO 9606.

<ul style="list-style-type: none"> <li>• <b>FCAW (136)</b></li> <li>• <b>Gas Welding (311)</b></li> </ul>		<p>MIG/MAG, FCAW and Gas Welding) and its main welding parameters.</p> <p>She/he knows the purposes of specific processes and their applications on different materials and joints.</p> <p>She/he knows the reasons and basic elements for pre-heating and most common post-welding heat treatment.</p>	<p>She/he adjusts the welding power source and other welding variables.</p> <p>She/he performs pre-heating, if required.</p>
<p><b>Quality Control and Standards</b></p>	<p>U3.6</p>	<p>Ensures quality control of own work, respecting instructions and relevant welding standards, with some level of autonomy.</p>	
		<p>She/he knows basic elements and techniques of visual inspection.</p> <p>She/he knows welding imperfections and reasons for them to occur.</p> <p>She/he knows the purpose and procedures of NDT inspection of welds.</p> <p>She/he knows the factors influencing welding quality.</p> <p>She/he is familiar with common</p>	<p>She/he identifies the weld imperfections/defects through simple visual inspection according to instructions.</p> <p>She/he implements quality control activities according to welding standards.</p>

		welding standards and their purpose.
